REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or suggest a shoelace fastener for a shoe having the structural combination of at least a clamp unit including at least one generally U-shaped flexible string section defining an opening, and a clamp member attached slidably to and extending across the flexible string section to divide the opening into a first aperture and a second aperture, the flexible string section having a U-bend cooperating with the clamp member to confine the second aperture, the clamp member being slidable along the flexible string section between a clamping position in which the clamp member moves toward the U-bend to clamp a corresponding one of the distal lace segments against said U-bend for maintaining a tightened state of the shoe, and a releasing position in which the clamp member moves away from said U-bend to permit sliding movement of the corresponding one of the distal lace segments for loosening the shoe accordingly; and a pull lace connected to the flexible string section for pulling the flexible string section so that the clamp member slides along the flexible string section to the releasing position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The state of the prior art is represented by U. S. Patent Nos. US 6839944 B1, US 6817070 B1, US 6782588 B1, US 6453525 B1, US 6453524 B1, US 6796009 B1, US 6779281 B1, and (U. S. Patent Publication Nos. US 20050015947 A1 and US 20040250388 A1.
